Wedge Clamps – *The Better/Faster Way to Hang Guards*

How do you hang and fasten your guards - Nuts & Bolts?

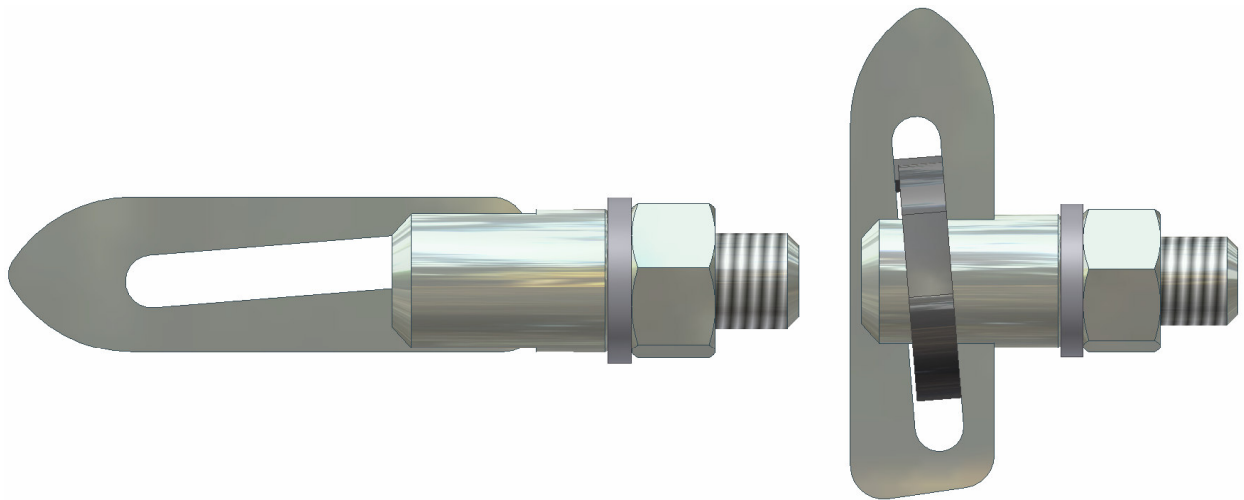

Do you have guards missing because somebody didn't put them back on?

Do you want to reduce your downtime and maintenance costs?

Have you ever lost or misplaced your guard mounting hardware?

If you answered “yes” to any of the above you need to know there is a better way.

WEDGE CLAMPS

Open Wedge Clamp

Closed Wedge Clamp

STAY AWAY - STAY SAFE

4 reasons why Wedge Clamps are better

1) Quick and easy guard removal and installation.

- Easily remove or reinstall a guard in 15 seconds or less.
- No strain or struggle, simply cut the tie wrap, disengage the clamp and remove the guard.

2) One person, one hand operation.

- Wedge clamps are easily opened and closed with one hand, allowing your other hand to be free to stabilize the guard.
- No need to reach in behind the guard to locate a nut or bolt.

3) Only one tool required.

- Keep your heavy tool box in the shop. The only tool you will need using wedge clamps is a pair of side cutters. One tool – it's that easy.

4) No loose parts to go missing.

- Dropping a nut when you are 100 ft in the air can be a real pain. No bolts or nuts = no missing parts.
- Missing hardware leads to missing guards or guards not secured properly.
- Wedge clamps simply pivot open and pivot close with no loose parts to go missing.

STAY AWAY - STAY SAFE

Wedge Clamps – The Better/Faster Way to Hang Guards

We hope you have enjoyed this tip sheet on “Wedge Clamps” and now see that proper guarding selection and installation is critical. Whatever your approach is to guarding, follow these tips and you will reduce worker injury, improve productivity, and comply with industry standards.

I would like to personally wish you great success in your guarding endeavors.

Sincerely,

Paul Vandergeest
President

ON GUARD FOR YOU

Guarding Basics

If your conveyors need guarding, and you are interested in developing a Safety Guarding Plan, then contact Belt Conveyor Guarding to set up an appointment for your free Conveyor Guarding Assessment.

During your initial contact, we will take some time to get to know you and your specific requirements. Once we have a good understanding of your guarding challenges and objectives we will suggest guarding techniques that will quickly adapt to your needs.

Your assessment comes with no obligation to purchase our products or act on our recommendations, and we will not pressure you in any way. It will be your choice to take the next step, and if you choose not to, that’s okay with us.

Book your **free** Conveyor Guarding Assessment today by calling our toll free number 1-866-300-6668 or fill in our contact information sheet at:

www.conveyorguarding.com/lpassess.htm

With each guarding assessment we will also send you a **free** Conveyor Pinch Point Gauge.
